About US

- Founded in year 2002
- Registered Capital: RMB 500,000.00
- Capability up to 50GHz for microwave components
- Design, manufacturing, inspection and quality control capabilities allow fast response to our customers. (Zysen) is a valued supplier of high performance RF/Microwave components and related services.

Products Line

Microwave Components

Coaxial Termination & Attenuator

Waveguide Components

Wireless Components

Microwave Components

- 2way to 32Way Power Dividers, directional coupler, 90° and 180° hybrid coupler, Up to 50GHz;
- Bandpass Filter, Lowpass Filter, Highpass Filter, Bandstop Filter
- Pin Diode Switch, high power and filter switch bank.
- Digital Control Attenuator
- Ferrite Isolator/Circulator
- Limiter

Coaxial Termination & Attenuator

- Up to 40GHz
- 0.5 to 2000Watts
- Connector, Chip are Available

Waveguide Components

- Straight/Bend/Twist/Transition
- Attenuator, Load
- Coupler, Filter
- Adapter

Up to 110GHz

Wireless Components

- Directional Coupler
- 5G Filter/Duplexer
- Microstrip Power Divider

Instruments

Workshop

Advantages

- Customization Welcome
- Competitive Price
- Fast Delivery
- Professional Technical Support
- Professional Customer Service

Quality Assurance

- Strict Monitoring to whole Process, from raw material supply, components selection, production site management, semi-finished product, finished products, all the way towards after sales services.
